Members of Avel Fire Company, No. 1

History of the Fire Company

A GROUP of residents of Avenel banded together for the purpose of organizing a fire company. The group held its first meeting at the home of Mr. J. B. Edgar, July 1, 1912, to appoint Fire Commissioners for the district. The following were appointed to serve for the ensuing year: Dr. A. F. Mount, J. B. Edgar, E. A. Moran, H. Posner and J. Praver.

On February 18, 1913, a fire company was organized. A charter under the name of the Avenel Chemical Company No. 1 was obtained. July 12, 1913, the name was legally changed to the Avenel Fire Company No. 1.

The charter members are as follows: Messrs. Joseph Bizdery, Fred Ciegotura, Emil C. Earhart, Edward L. Fagan, Andrew Fuss, Rudolph Hrinnyak, Edward A. Moran, Edwin J. Perry, Joseph Praver, Henry Striker, Joseph Szabo, and William VanSlyke.

A seventy gallon chemical hand drawn apparatus was purchased, also a carboy of acid and a barrel of soda used for fire equipment. This apparatus was housed in a shed owned by Joseph Praver. The following year the firemen built a small building on a lot leased by a fireman, Frank Hacker, for five years. As years passed with monies received from various activities and donations from public-spirited citizens, a piece of property was purchased on Hyatt street, corner of Ziegler avenue, upon which a hollow brick fire house was built in 1919.

In 1921 monies were raised through an appropriation voted by the people in the fire district, which resulted in the purchase of a motor driven apparatus, a two hundred and fifty gallon pumper. The same year fire hydrants were installed on Avenel street, and up to the present time fire hydrants are installed throughout the district.

A new Highway was constructed by the State Highway Commission, called the "Superhighway," and part of the fire house property was taken by the Commission, resulting in the purchase of a new piece of property by the Fire Commissioners to house the fire apparatus. Our present fire house, was built in the year 1929, on the corner of Avenel street and the Superhighway.

In 1936 a five hundred gallon apparatus was purchased. Also an installation of a Fire Alarm System in the district, with eight fire alarm boxes.

The present roster consists of forty-five active firemen.
